

Without our Holy Faith and Holy Prayers,

We are nothing and nothing is real, possible or enduring... all ends due to man's illusions, lies, false promises, dreams and visions for without God, His Holy Spirit and Grace, we remain just the sons/daughters of man. How many universes do we have to experience before we can confront the fact that we are just mortal beings, beings that have no more future if we are not begotten as sons/daughters of God by the power of the Holy Spirit and Grace?

Man's world is a mere reflection of light, or should I say a "bearer of the light" – like Satan, the Anti-Christ, and all the demonic angels. This reflection distracts man into believing that he is IT. This reflection brings chaos, confusion, suffering, illness, destruction, and death. We might be on top now, but shortly we will all be confronted with the darkness. So what good will all our accomplishments, achievements, or successes be then? Who will remember us or what we did?

Our soul's journey "in becoming" started at Baptism and hopefully with and by the GRACE of GOD will end with our receiving Extreme Unction at the completion of this journey here on Earth. We came to find God, and to love God with all our strength – heart, mind and soul. We came here with the free will to either choose God's World or Man's World. We didn't come here to be the physically the "most fit" or economically the most powerful, or scientifically to be the highest technical modern being.

Our Mother of God's messages through time and throughout various parts of the world, have been calling Her Children back home. Her sorrowful heart that greatly suffers from the pain which comes when children do not answer the call to return back home before the hour becomes too dark is intensifying. The children and the children of the children have become so distracted with their worldly lives God has been nullified to a mythical or a fictional character. She knows what lays ahead -the Light will soon be leaving and no longer returning, and those children who did not answer the call will be left behind... no longer with any hope for all eternity.

What mother would want this for her children? Oh, how She is suffering for all mankind!

This short moment here in this physical reality of being determines our eternal life in Heaven or Hell... God sent prophets to warn us, He sent His only Son, Jesus Christ to show us the way, He now sends His Mother to remind us who we are and to "make straight our way" for the coming of Her Son. How long will we test Our God's patience or keep the Holy Martyrs' waiting for the justice and righteousness to rein upon the earth.

Our faith is a mystery and with the assistance of GRACE, we can enter these mysteries with total abandonment of our SELF. We grow HOLY by practicing our Holy Faith – keeping the Holy Commandments, saying our Holy Prayers, participating in the Holy Sacraments, studying the Holy Scriptures, doing works of charity/mercy/love, and by fasting.

Faith is the language of the heart, not the intellect. If we change our hearts our minds will follow. By God's Grace we will have the strength to "hold the tension" and enter the unknown. Faith is like that of a mustard seed without practicing Holy Faith it will remain nothing more than an empty, nonproducing, shallow-feel good for a moment from birth-during life and ending with death...to be "no more".
